VOL. 32, NO. 39. CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA FRIDAY, JUNE 7, 1929

Pertinent Paragraphs

Harry F. Sinclair, oil magnate, now serving a three-month's sentence for contempt of the senate, must serve an additional period of six months for criminal contempt on charges arising out of the jury-shadowing indulged in by the Sinclair faction during the late oil unpleasantness at Washington. Mr. Sinclair deserves all the time the supreme court can hang onto him—but it's hard to believe that the prisoner is suffering very much in jail.

A farm relief bill, minus the debenture plan, is hoped to meet with presidential approval this week. Entitled the "Agricultural Marketing Act," the bill provides for a federal farm board of eight members, who will receive $12,000 for their services. The secretary of agriculture will also serve on the board. The function of the group will be to advance the co-operative marketing movement under government supervision and buying up and marketing surplus crops. A fund of $500,000,000 would be provided as working capital and administrative expenses would be met from a separate fund of $1,500,000. McNary and Haugen both approve the bill. It has the earmarks of a helpful measure—for eight good men at least—at $12,000 per year per each. Which will be cheap enough if they accomplish anything.

A Watsonville police judge startled citizens of that city by threatening to drag forth a long forgotten ordinance which makes persons guilty of misdemeanors liable to a sentence to the "chain gang." Working in the streets of their home city, with a 50-pound weight attached to their ankle is a prospect which should serve to make people mind their own business with considerable zeal. Many people who would cheerfully pay a fine for the privilege of socking their neighbor on the nose would hesitate to indulge in this pleasure if they knew they were liable to a lot of hard work and ridicule. We suggest something of the sort for reckless and drunken drivers who are hailed before the county traffic court.

Campbell may have a police district, if a recent petition is favorably regarded by the county supervisors. That the community needs a regular policeman is apparent—especially in the canning season. What we want to know is this: In the event that a police district is successfully formed, who pays the policeman's salary? Does a benevolent county meet the expense, or do the residents of the patrolled area pay the bill? The latter surmise is probably correct—and just. Provided, of course, that the expense is fairly pro-rated. Just another matter that could be settled locally—under incorporation.

And speaking of incorporation, we believe it is within the power of city councils to set aside certain streets for pleasure vehicles and light delivery cars only. We could use an ordinance of that kind on Campbell avenue. Gravel trucks that hurtle through town could just as well travel Hamilton avenue. There are lots of youngsters in our town, and we must not lose sight of the fact that many of our residents are elderly people who are not so spry in dodging automobiles as they once were. And the fact that no one has yet been killed on our main street is not proof that we are all immune.

We have a fire district, a lighting district, a potential police district—and sometime the town will be faced with an acute sewer situation. Would it cost more under incorporation?

That's all.

LOCAL MASONS WILL BE HOSTS TO THEIR LADIES THIS EV'NING

Tonight at the community hall Campbell Masons will entertain their ladies at their annual ladies' night festivities. A charming program has been arranged by M. J. Bohnett, general chairman, with the aid of his assistants. Starting at 8 o'clock, members and their guests will first form the audience for the following numbers:

Address of welcome, Robert Scholz, W. M.; vocal duet, Annette and Stephen Merrill, Dr. W. I. Merril at the piano; violin solo, Calvin Bohnett, Mrs. George S. Robson, accompanist; reading, Mrs. Harry Smith; vocal solo, Mrs. Ralph H. Hyde, Mrs. George Robson, accompinist; violin solo, Calvin Bohnett, Mrs. Robson at the piano.

Following the program, M. J. Bohnett, who is also master of ceremonies, will announce dancing and cards.

Boxes On Rural Mail Routes Are Painted

In conjunction with an old order, renewed each year by the post office department, the rural mail boxes on our local route are beginning to look like a million dollars with their new coats of paint.

Last year Clancy and Cullen of Santa Clara painted all the mail boxes on the route and furnished the patron with a stencil. Due to this fact the local post office did not issue or press the old order, but since the boxes are beginnig to again look shabby Mr. Bailey is now canvassing the route and painting the boxes to conform to the specifications of the department, for a very nominal sum. It is hoped by local mail officials that all patrons will do or have this work done. The mail carrier will gladly cooperate in getting the painter on the job for patrons who are still desireous of having this task attended to.

Mail boxes on Hamilton avenue are mute evidence of the difference just a few drops of paint make.

Sea Scouts To Take Part In Competition

Sunday, June 9, at Santa Cruz, Campbell Sea Scouts will participate along with other scouts from San Jose and Santa Cruz in a number of aquatic stunts. Boat drills, boat races, pulling races, tug-o'-war, swimming races and other water sports with teams from each scout district taking part, will be staged.

Officials of the United States navy from San Francisco will be guests of the scouts at this event.

It is hoped by Scoutmaster Eugene Grattan that his lads will conduct themselves as creditably as they recently did in bringing their smallboat safely into port during one of the worst storms ever witnessed on San Francisco bay.

Tots In Recital Please Appreciative Hearers

In a recital last evening at the Campbell community hall, piano pupils of Mrs. Emily Gard conducted themselves in a manner very creditable to their teacher. Including tiny tots whose feet were a long way from the pedals, Mrs. Gard's young charges did their bit with remarkable precision and accuracy.

Adding to the entertainment, at which a large number of people were present, was the appearance of Miss Patrice Smith, a former pupil of Mrs. Gard's ,who rendered beautifully several selections from Chopin's compositions.

NEW PROBLEMS COMING

Australia is planning to rehabilitate land, impetus to the movement having been given by th irrigation in America of previously unproductive parts of Texas and Arizona which have become very productive agricultural areas.

In the eastern district of Victoria, an effort will be made to reclaim thousands of acres now given over to rabbits and brackn.

A canal is planned in central Australia, partly to improve transport, partly because it would so affect the climate as to increase rainfall.

At the same time an American engineer has incorporatd a company to reclaim more than 100,000 miles of the great Sahara desert.

If the scheme goes through and brings about the effect promised for it, thousands of acres now barren will be made productive.

All of these undertakings are commendable and show what rapid agricultural strides are being made. They are unmistakeable, strong signs of a mighty progress.

At the same time the successful completion of these plans, and the subsequent greater area of thriving farm land, will give farmers new problems to solve.

ILLITERACY

It is alarming to consider that there are 5,000,000 men and women in this country who cannot read or write.
do not attend school.

Now the National Congress of Parents and Teachers is conducting a campaign to eliminate illiteracy. They hope to make great strides by 1930. If this association brings home to people the importance of education and literacy, a great deal will have been accomplished. Illiterates are never "free." They are the exploited and oppressed at all times. There should be a miniumum of illiteracy in a country such as America, dedicated to the ideal of democracy.

Calvin Coolidge, when president, advocated the establishment of a department of education with a secretary in the cabinet, to cope with the problem of illiteracy.

The legislation was not enacted, however, and we respectfully submit the idea to the consideration of Herbert Hoover.

Mr. and Mrs. W. E. Bartholomew of Modesto were guests at the C. E. Buck home Sunday.

KIWANIS NOTES

Every mother's son Kiwanian felt a tug at his heart strings when he heard of the care-free meanderings of the hobo as told by Richard Werner of the San Jose state teachers college Tuesday. The successful man and the hobo have many things in common, but the one great difference is the home and appreciation of it by the one. The one does things for his home, state and nation, the other has not these to do for.

Mr. Werner recited some interesting experiences and facts in his hobo talk that were thoroughly enjoyed.

Royal Page, as chairman, proved his capacity as a charity promoter too.

The pledges on the building project have reached $2,675.50—practically enough to do the job.

"ALL Kiwanis" night has been set for June 24, and a committee, T. A. Cutting, C. H. Whitman, B. O. Curry and Dr. W. I. Merrill will make the arrangements.

Adolph Emskamp will direct the cash-and-carry at the Tuesday meeting. After Carl Field tells of his "midnight ride of Franklin," if no one else has a word, "Skamp" will say a few about Spokane.

WATCH YOUR STEP ON THE SANTA CRUZ ROAD SAYS CAPT. JOHN PACHECO

According to an announcement made this week by Captain Pacheco of the county traffic bureau, reckless drivers will not be permitted to do their stuff on the Los Gatos-Santa Cruz highway. Predicting a record flow of travel over that road this summer, Captain Pacheco stated that the careful driver will not be endangered by careless drivers if strict daily patrol by motorcycle officers will prevent it.

IF YOU ARE PLANNING A FISH POND IN YOUR GARDEN, TAKE THIS TIP

A local man gave us this information gratis. We are passing it on to any who may be interested.

"Many Campbellites," he said, dens. Some are stocking them with "are building pools in their gargold fish and some with 'mosquito' fish.

"Mosquito fish are not desireable, as they multiply too rapidly.

"Those who have gold fish should watch their ponds very closely as this is the spawning month and on warm days algia and Cabomba is likely to be covered with fish eggs.

"For the best results the plants containing spawn should be removed from direct contact with the adult fish, as they will eat many of the eggs.

Gold fish eggs will hatch under favorable conditions in from 72 to 84 hours. Raising small fish is quite fascinating."

WOMAN'S COMMONSENSE MELLON QUOTES FRANKLIN BELLS TO PROTECT BIRDS THE KENTUCKY DERBY

Naming a Commission to study law enforcement, President Hoover wisely includes one woman, Dr. Ada L. Comstock.

Her experience as an educator will enable her to tell other members that the turn toward crime is taken in childhood.

Furthermore, women's commonsense often enables them to take short cuts that men would not find.

Secretary Mellon will not resign. He himself is authority for that statement.

That is good news for the whole country, particularly good news for President Hoover, who understands business and knows what it means to have in the treasury the ablest business man in America.

Mr. Mellon says, quoting Benjamin Franklin, "I am deficient, I am afraid, in the Christian virtue of resignation."

At Riverside, a suburb of Chicago, citizens like cats and birds that do not like each other.

A local ordinance now compels owners to put bells around their cats' necks to warn and protect birds.

Cats without bells will be executed.

Those that like birds and cannot do without cats will adopt the idea elsewhere.

If acquired characteristics can be inherited, as undoubtedly they can, after some generations cats will steal up on the birds without ringing the bell until the final spring.

The Kentucky Derby was won by a small racehorse named "Clyde Van Dusen" weighing only 835 pounds, called by reporters "an equine mouse."

The equine mouse, had "Man-O'-War" for a father, and from that father it got energy enabling it to kick mud into the faces of other horses, for a mile and a quarter.

Some rich men leave sons that are mental mice.

Nature attends to that to prevent a race of super-men. The rich father's money holds the son back.

Virginia Hogan, twelve-year-old Irish-American girl from Omaha, wins the National Spelling Bee. And, this will surprise you. Teru Hayashi, a Japanese boy, was number four in the competition. "Panacea" eliminated him.

President Hoover's Commission on Prosperity, outlining our gigantic resources, added that Americans had barely scratched the surface of national wealth.

As an efficiency engineer, President Hoover may suggest a way of cutting down waste.

Master of them All for Winter Driving

LIKE the teeth of a powerful bull-dog, those big, deep, sharp blocks of tough rubber cut in and engage on slippery roads, bringing your car to a sure, safe stop.

Note how these blocks or "teeth" are placed IN THE CENTER of the tread.

Note how the "teeth" also extend UP THE SIDES — to prevent skids on turns — to take hold in ruts—to pull out when tires sink deeply into mud, sand, slush or snow.

More than 20 winters have proved the All-Weather the safest and best of all non-skid treads. Now comes this extra-deep-cut, extra tough, super-edition of that same famous tread to master the very worst driving conditions. It is one of many super features, exclusive to the

The GENERAL TIRE

—goes a long way to make friends

Speed

If you like an open road, in a car that can travel as fast as you care to drive it, you will enjoy it twice as much on Generals. If you have ever felt your tires at the end of a fast run, you know that speed means heat. By using only the purest friction and tread rubber in generous quantities, General reduces internal friction (the cause of heat in tires) to a minimum. With Generals you can travel far and fast with the comforting knowledge that they won't wither from heat when you need them most.
